EXPERIENCE

Senior Software Engineer - 1 — April 2026 - Present
Ixigo — *Gurugram, IN*

- Built the search experience behind **Smart Lock**, ixigo's paid agent that watches fares and locks the first flight within a traveller's budget
- Shipped **partial payment for cabs** end to end on the web.
- Built **revenue-driving cross-sell hero widgets** — home-screen surfaces with a time-windowed slide system driving cross-product conversion.
- **Unified fragmented CleverTap analytics events** with structured keys, improving funnel observability and reducing event noise.

Software Development Engineer 2 — April 2024 - April 2026
Sparklin Innovations Pvt. Ltd. — *Remote*

- Architected and developed production-grade frontends for **Openvy**, **Recommendations.email**, and **Jupitun** using **React.js, Next.js, and TypeScript**, applying modular architectures for scalability.
- Improved **data-fetch latencies by ~30%** via browser/HTTP caching, query caching, optimistic UI, and CDN revalidation.
- Increased organic traffic by **20%** by building an **SEO/performance pipeline** with dynamic metadata, schema markup, route prefetching, and bundle optimizations.
- Developed **reusable UI primitives and custom hooks**; established **frontend architecture standards** and review workflows.

Software Development Engineer — November 2021 - April 2024
Sparklin Innovations Pvt. Ltd. — *Remote*

- Designed and owned the **frontend architecture for Openvy** using Next.js and Tailwind CSS, enabling modular feature rollout, predictable routing, and reducing onboarding time through clear architectural patterns and documentation.
- Built shared UI components and frontend utilities adopted in the **ICICI Internet Banking** application for consistent, reliable user experiences.

Frontend Developer Intern — June 2020 - September 2020
Homerunn, Avana Property Solutions Pvt. Ltd — *Remote*

- Improved **page load performance by ~20%** by profiling components, removing redundant re-renders, and optimizing DOM updates.
- Reduced UI regressions by fixing cross-browser inconsistencies and applying layout/CSS polyfills for Chrome, Firefox, and Safari.
